

FIG. 1

FIG. 2

Fig. 1 is a detailed cross-sectional view of a mechanical assembly, likely a valve or actuator. The assembly is shown in a longitudinal section, revealing internal components. Key parts include a central shaft (3) with a handle (4) at the top and a piston (31) at the bottom. The piston is connected to a lever (32) which is part of a linkage mechanism (33, 34, 35). The assembly is housed within a main body (11) with various internal passages and seals (11a, 11b). A top cap (14) is shown with a screw (TO 6). The entire unit is mounted on a base (5). The diagram is labeled with various numerical identifiers for its components.
